

Barnies Day Nurseries and Preschools

COVID-19 - Contingency Plan

During this period Barnies will do its utmost to open on time and offer a full service.

However, we must adhere to government and legal advice to ensure the safety of children and staff is assured. In addition, we are governed by specific staff:child ratios and can only accept children if the correct staffing level is present although we are awaiting advice regarding the possibility of these levels being temporarily adjusted.

Therefore, if staff are required to self-isolate or apply full quarantine restrictions and our ratios become restrictive, we will need to consider other options such as:

- late opening - early closing**
- applying a first come first served or fairly shared provision**

If this situation occurs you may need to telephone the setting prior to arrival to ascertain that we are able accept your child and for how long. Please ensure you have the correct telephone number for the setting:

HOP FARM - 01622 872788

HADLOW - 01732 850033

If we are required to close the information will be on the Kent Closures Website please register with them to receive alerts. We will also post this information on our [Facebook](#) page with updates as they happen.

We appreciate your co-operation and understanding with this matter should this unpredictable situation occur.
